

## YOUR PRODUCT – OUR GLOVES

### TELL YOUR STORY WITH OUR GLOVES!

You need gloves, we produce them. But not only that, we are your customer brand partner supporting you with all functions necessary to make our product tell your brand's story.

Gain from our broad high-quality portfolio that will offer the best solution for your customers and market requirements. Once you have decided which product best fits your needs, we assist you with regulatory knowledge and logistics and develop your final product including packaging, design and labelling, together. Our local sales team will gladly assist with any query to make your product a success.

Benefit from our first-hand glove experience but tell the story with the words of your own brand.

### CERTIFICATIONS AND STANDARDS

Medical products around the world are subject to stringent legal requirements with respect to functionality and safety.

The Sempermed glove production and quality controls strictly adhere to the European and/or US standards and as a consequence are subject to rigorous quality tests and inspections by the relevant notified bodies. Please find a selection of the certification and standards our gloves adhere to below.

ASTM INTERNATIONAL

## WE ARE TRUE EXPERTS IN OUR FIELD

The renowned brand, Sempermed, has an outstanding history of glove production dating back to 1920. We gained extensive knowledge through more than 100 years of experience in the manufacturing, distributing, and marketing of surgical, examination and personal protective gloves worldwide. We continuously improve and strive for innovative solutions. The large number of our long-term customer brand accounts around the globe proves that we know our users' and marketplaces' demands very well.

As an established and successful international manufacturer of examination, personal protective and surgical gloves with production facilities in Europe and in Asia we are the ideal partner for your customer brand gloves.

## TOGETHER, WE ARE LOOKING FORWARD TO MAKING YOUR CUSTOMER BRANDED GLOVES A SUCCESS!

# HIGH QUALITY - WITH A STRONG FOCUS ON SUSTAINABILITY

Sempermed® takes its environmental responsibility seriously, thus sustainability is anchored as a fundamental principle in our company's strategy. We commit ourselves to the highest ethical and social standards as well as fair working conditions for all employees worldwide.

## ECOVADIS RATING

EcoVadis is a provider of business sustainability ratings, intelligence and collaborative performance improvement tools for global supply chains. As part of the platinum-rated Semperit Group, all our production plants have a platinum medal as well. This is the highest possible rating putting us among the 1% of companies with platinum status.

Learn more about EcoVadis here!

## BSCI, ILO & NHS

We are members of the Business Social Compliance Initiative (BSCI), an economic initiative for companies who are dedicated to improving the working conditions along the global supply chain. All standards of the ILO (International Labour Organisation) apply to all Sempermed production sites. We are also a member of the NHS Labour Standards Assurance Scheme of the NHS UK.

## WE OFFER SUSTAINABLE AND CLIMATE NEUTRAL PRODUCTS

Our glove portfolio also covers sustainable products that are produced with our innovative green glove technology, using 17% less energy & 12% less water \*. Additionally this technology is latex-free and uses no accelerators. Also discover our climate neutral gloves for your brand.

Find out more about our sustainability strategy here!

## QUALITY & PORTFOLIO

### REGULATORY COMPETENCE

Our technical and regulatory experts provide you with the basis for compiling all the documents legally required to launch and market your products in the relevant territories. For European markets we help to manage your technical documentation, assist in creating technical files for products conforming to Medical Device Regulation (EU) 2017/745 and Personal Protective Equipment Regulation (EU) 2016/425 and support product registration for all other markets.

Our glove production and quality controls are strictly in line with European and/or US glove standards, which means that we meet the majority of regulations worldwide. All of our manufacturing plants and processes are subject to stringent quality tests and inspections by reputable notified bodies. Our advanced technologies, raw material control, quality assurance and pre-shipment inspection translate into consistent quality. Our continuous research and development work ensures an ongoing pipeline of innovative products. Our broad glove portfolio offers you the possibility to select products according to your individual demands. Discover the wide range of our glove specifications now!

### PACKAGING COMPETENCE

Once you have made your glove selection, we match your packaging requirements with our packaging design service. In addition, we assist on product and regulatory matters to enable you to fulfil your legal & regulatory responsibilities for your brand.

### CUSTOMER CARE AND CONSULTING

Your individual brand requirements are key for a successful product launch. We think globally and act locally, with a strong global positioning. As our customer brand partner, you receive customised local pre-sales, sales, and post-sales support from our sales & services teams to align with your business needs.

### LOGISTICS

We support you with our professional logistic solutions based on your requirements. Our long-term logistic partners ensure that your products are delivered according to your requirements.
